Italian award winning independent Documentary/Fine Art Photographer and Art Director/Graphic Designer. Attended Central Saint Martins (University of the Arts London), Westminster University (Foundation Studies Diploma in Art and Design, London) and Graduated in Graphic Design from Kingston University (BA Hons – London, UK) in 1998. Spent the following 18 years switching between various forms of design and photography while working on different assignments/projects and collaborating with companies and individuals from around the world. My experience and skills stretch into a wide range of communication related areas: from Graphic Design to Concept Design, from classic Photography to Photojournalism/Reportage (my true passion), from analyzing the User Experience to evaluating Usability/Accessibility, from Mobile Applications to Software Design.

Since 2012 I devoted my skills, interests and passions entirely to photography. My documentary work focuses mainly on social, anthropological and humanitarian issues, while, at the same time, I remain very much involved in Fine Art Photography. I am particularly interested in the development of personal projects that give a real, current and, possibly, true vision of what is unfolding in front of us and around the world.

My work has received a number of international awards (PX3 Prix de la Photographie, IPA International Photography Award, LensCulture, Allard Prize for International Integrity, Black & White Spider Awards and HIPA finalist among others) and was exhibited in various locations around the world (GHISLA Museum of Modern and Contemporary Art, Switzerland – Biennale dell'Arte, Venice – Palazzo Cusani, Milan – Espace Beaurepaire, Paris – Arles Photo Festival – Chiang Mai Documentary Arts Festival... more info and details in the next pages).

Usually I work from my private Studio on the Italian hills near Venice, but I am more than happy to start projects in other locations.
